(Refer to the requirements stated in subsection 4750.60, Year-end CFO Procedures for Intra-governmental Transactions/Balances.)

**Section I. General Intra-governmental Reporting Results Instructions**

A. There should be consistency between the federal entity intra-governmental reporting submitted to the Governmentwide Treasury Account Symbol Adjusted Trial Balance System (GTAS) and the federal entity source documents. If there is not consistency, provide an explanation.

B. Federal entities should have policies/procedures to record, process, summarize, and report intra-governmental activity/balances by trading partner. If policies/procedures do not exist, provide an explanation.

C. For any activity reported with FR Entity 0000 (Congress: House and Senate), two separate dollar amounts are required: 1) a dollar amount of the activity that relates to business conducted with the U.S. House of Representatives and 2) a dollar amount of the activity that relates to business conducted with the U.S. Senate.

D. For any activity reported with FR Entity 9999 that is unknown and unidentified, where the federal entity cannot identify their trading partner and has any activity with FR Entity 9999, provide the dollar amount for the activity where the trading partner is unknown.

E. If a dollar amount was provided in question “D,” the federal entity must explain why the trading partner cannot be identified or is unknown.

F. For any activity reported with trading partner FR Entity 9900 – General Fund of the U.S. Government (General Fund), specify whether the federal entity provided the General Fund with the required data by the specified timeframe per Volume I, Part 2, Chapter 4700, subsection 4735.20g.  
**Note:** Fiscal Service will verify this deliverable with the General Fund.

G. For any required data provided to the General Fund by the specified timeframe per Volume I, Part 2, Chapter 4700, subsection 4735.20g mentioned in question “F,” specify whether the amounts provided to the General Fund match what was reported in the federal entity’s audited financial statements. If they do not match, provide an explanation.

H. Review the Intra-governmental Material Differences Reports provided by Fiscal Service in the Intra-governmental Module of GTAS. Federal entities must work with their trading partners to reconcile differences. Specify whether the federal entity contacted their trading partners concerning Part I material differences. If they were not contacted, specify which federal entities were not contacted and provide an explanation.

I. Specify whether the federal entity’s material differences resulted from an internal error. If there was an internal error, a top level journal voucher may need to be completed for the consolidation of the *Financial Report of the U.S. Government*. Specify and provide consent if a journal voucher can be completed.

J. Specify whether the independent auditors proposed any adjustments related to intra-governmental balances at year-end. If so, specify whether any of these adjustments were waived by management and provide an explanation.

K. If the federal entity did not have a CAP that existed for the specific dates, enter N/A. For Corrective Action Plans (CAPs) with targeted completion dates in the current fiscal year, specify whether the federal entity implemented these CAPs. If the CAPs were not implemented, specify whether an Extension Request was submitted or whether the difference was entered into the Dispute Resolution process.  
If either of the answers is “yes,” then enter “yes” in the box.  
If both answers are “no,” then enter “no” in the box, provide an explanation and include the CAP number.  
**Note:** Fiscal Service wants to know if the CAPs were implemented, and/or if federal entities are actively working on CAPs, not if the status updates were completed.
