SIN 518210FM Subgroups

- Core Financial Management Solutions (Core FS)
- Additional Financial Management (FM) Solutions
- Financial Management (FM) Solution/Service Adoption and Transition Services
- Financial Management (FM) Technology Operations Support Services

Summary/Background

The creation of this SIN was an outcome of OMB Memorandum M-19-16, and the designation of the U.S. Department of Treasury (Treasury) as the Financial Management Quality Service Management Office (FM QSMO).

A key component of the FM QSMO program is to establish a marketplace consisting of commercially available FM solutions to support agency requirements

for cloud computing services and Cloud Related IT Professional Services.

SIN 518210FM differs from other existing SINs under the MAS Information Technology Category (ITC). It has additional minimum contractor compliance standards and additional technical evaluation requirements that would not be suitable to layer onto existing MAS SINs. SIN 518210FM provides ordering agencies access to the FM QSMO marketplace.
