| S/P           |          | 15          | The domain value "D" (for debit) is only shown in the GTAS attribute "Debit/Credit" column to allow agencies to report abnormal balances for these TAFs. These situations will be addressed on a case by case basis by OMB.  |            |               |            |            |           |            |         |               |             |            |        |                |                   |                  |             |           |                        |       |        |             |
| S/P           |          | 16          | Domain value "C" (for credit) in the GTAS attribute "Debit/Credit" column is only applicable to fund families at a Budget Object Class (BOC) level. Abnormal BEGINNING balances permitted thru FY 2024-12 GTAS reporting window. While ENDING balances may be a debit, agencies are required to pass the fatal GTAS edits 212 and 213 and work to resolve any issues related to proposed edits 214 and 215. Any debit balance with a Prior Year Adjustment attribute domain value "B" or "P" is always permitted where appropriate. OMB will provide updates throughout FY 24. |            |               |            |            |           |            |         |               |             |            |        |                |                   |                  |             |           |                        |       |        |             |

## Part 1, Section VI: USSGL Crosswalks to Reclassified Statements

These crosswalks map USSGL accounts to external reports in accordance with TFM Volume I, Part 2, Chapter 4700, Federal Entity Reporting Requirements for the *Financial Report of the United States Government*. Each report crosswalk lists the proper USSGL accounts and applicable attributes for each line and/or column on the reports. Attributes identify information subsidiary to the basic 6-digit USSGL accounts. This subsidiary information is necessary to meet external reporting requirements. See Section IV for additional information on attributes.

The following are crosswalks from the USSGL Chart of Accounts to standard external reports required by Fiscal Service:

| Section VI  | Page Number   |

| 3 | Seigniorage is defined as "Other Financing Sources" (see SFFAS No. 7, paragraph 305) and has a non-Federal attribute. A new line to accommodate seigniorage with an "N" attribute was not added to the "Other Financing Sources" line since seigniorage does not meet the Financial Report's materiality threshold. As a result, seigniorage was added to the "Other Taxes and Receipts" line instead. |

# Treasury Financial Manual

## Part 1, Section VII: GTAS Validations and Edits

One of the goals the Bureau of the Fiscal Service (Fiscal Service) has envisioned for GTAS is to improve the consistency in agency trial balance reporting. This will be accomplished through validations and edits.

The validations ensure that the attributes reported in agencies' GTAS trial balance submissions are valid for the USSGL account. The validations encompass both USSGL level attributes per the USSGL Attribute Table and Treasury Account Symbol (TAS) level attributes found in the Super Master Account (SMAF). Simple validations are those involving one attribute while special validations involve more than one attribute. All validations are fatal.

The edits compare the agency trial balances with USSGL rules and with data from authoritative sources such as the Central Accounting Reporting System (CARS), Fiscal Service, and the Federal Financing Bank. The edits may be either fatal or proposed. Fiscal Service will use the proposed edits only for analytical purposes. Fiscal Service disclaims any role or responsibility with the agency auditor relationship concerning the GTAS fatal and proposed analytical edits.

The following are the validation and edit reports included in this section:
