

FM QSMO

FINANCIAL MANAGEMENT QUALITY
SERVICE MANAGEMENT OFFICE

Driving government efficiency through
the FM Marketplace

Our Vision

Standardize
and streamline
what is common

for government financial
management systems and give
agencies the flexibility to invest
where they need to support
unique mission-oriented
business needs

Our Mission

Offer a marketplace
of systems and
services that drive

innovation, compliance with
federal policies, standardization,
and automation

The U.S. Department of the Treasury, as the designated Quality Service Management Office (QSMO) for core financial management, manages a marketplace that offers a variety of standards-based solutions and services from qualified and experienced providers to promote efficiency, transparency, and accountability.

What We Do

The FM QSMO manages the [Financial Management \(FM\) Marketplace](#), an online storefront and catalog that offers a mix of technology, advisory, and operational solutions and services, including cloud-based core financial systems, from trusted providers to help agencies meet their financial management needs and comply with government-wide directives.

Our Partnerships

Our partnerships with agency leaders support financial system modernization planning and access to Marketplace solutions and services through the GSA Multiple Award Schedule. Our collaboration with industry supports innovation, provides opportunities, and ensures continued compliance of offerings with new requirements.
